

OHIO ENVIRONMENTAL PROTECTION AGENCY

Getting to Know the Public Servant Next Door

EPA employees...

- ensure that water in homes, schools and businesses is safe to drink.
- make sure companies do not pollute or dump hazardous waste that could leach into public water systems, streams, rivers or lakes.
- protect the public when hazardous spills occur.
- test for air, water and soil pollutants.
- monitor waste water before it leaves treatment plants.
- work to eliminate potentially hazardous waste on abandoned industrial properties.
- support school education projects by granting funds for science.
