# OCSEA brings you PHASE 2 of the ODOT Training Project

Last fall, OCSEA's ODOT Assembly leaders arranged trainings for ODOT bargaining unit members who were having difficulty with the math class needed to *enter* the HT Series.

Now the Assembly has arranged for training to be offered to bargaining unit employees who are *already* in the series but are having difficulty advancing to Level 2 because of the math.

## It's as easy as

- 1** Call the contact person at the learning center nearest you listed on a separate flyer.
- 2** Identify yourself as an OCSEA ODOT employee interested in the OCSEA/ODOT Training Project.
- 3** Set up your appointment for your individual consultation!

## Then...

...you're on your way for up to a year of free training.

All you have to do is invest a little of your own time.

First, you will have a personal, confidential consultation and then, based on your skill level, there will be a one-on-one training, tailored to your individual needs.
