ODOT MEMBERS:

Union Education Trust

offers up to **\$1,000** for advanced HT courses

OCSEA members in ODOT can now take advantage of the Professional Enhancement program offered by the Union Education Trust in order to take external certification courses for the Highway Technician Series. Those individuals who are advancing through the Highway Technician Series and who have exhausted ODOT's resources to take the certification classes can now apply for up to \$1,000 per fiscal year to take these advanced courses (see list below).

ODOT Assembly leaders worked closely with the UET chair in an effort to give ODOT bargaining unit members another opportunity to succeed in the HT Series.

The HT external certification courses are pre-approved by UET, so all union members need to do is fill out the application and submit a signed registration form.

To apply for the Professional Enhancement program through the UET, call the toll-free number at 866-436-7900 or send an email requesting an application to support@uedtrust.org.

Courses that can be taken through the Professional Enrichment program are the following:

- Aggregate 1, 2 and 3
- ACI Concrete Field Testing Technician Grade 1
- ORMCA Concrete Technician
- Nuclear Safety
- Asphalt 3
