

Your pension funds and healthcare benefits continue to be at risk.

And they will continue to be unless our legislators hear from OCSEA members across the state.

JANUARY 11, 2004

There's a super EASY way to let your elected officials know how you'd like to see pension reforms to be shaped. It's on OCSEA's website...

1

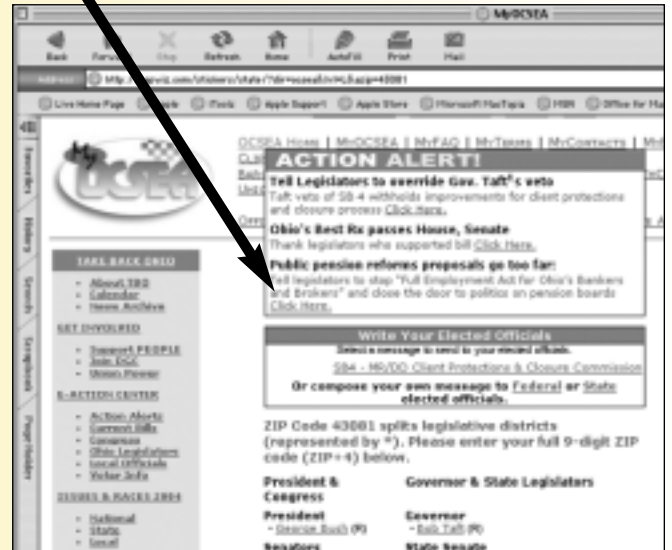

Go to OCSEA's home page and enter your zip code in this window

and click on GO!

2

A window will open showing who your legislators are. Find the issue on public pension reforms and click where indicated.

3

The resulting screen will show a pre-written message that you can personalize. Follow the directions to either send this message via email or send in a printed letter. It's that easy!

If you don't have Internet access, you can find your legislators' names and numbers by calling 800-282-0253.

Just another way to...
