ODOT WORKERS IN THE HT SERIES:

Is math not your thing?

**Don't despair.
You're not alone. Your union is here to help.**

Maybe it's been a long time since you were in school. Or maybe you have anxiety taking tests. Don't worry. There are plenty of people who just need a little extra help in passing some of the HT coursework.

If you're having trouble with any of the courses, contact your union representative now to get help. They can point you to resources, come up with an individual plan and work with you to get over the hump.
