## Balancing the State Budget:

*“Won’t closing corporate  
loopholes drive jobs out of  
our state?”*

**Nope. Not so.**

**You may not know it, but...**

- *For the past 20 years, we have been reducing the share corporations have been paying and ... it hasn’t stopped them from laying off a single worker here in Ohio!*
- *The fact is ... large corporations are using loopholes to avoid paying their fair share in Ohio. Instead, they are shifting the tax burden to middle class families and homeowners who already pay too much in taxes.*

**Shifting tax burden to the  
middle class has got to**

**Call your legislators  
today. Tell them you  
want corporate loop-  
holes CLOSED!**
