The Governor and state legislators are after your job!

The Governor and legislators just took a giant step forward in getting rid of Collective Bargaining that could lead to...

- ▶ Massive strikes statewide
- ▶ Job lockouts
- ▶ Entire classifications being eliminated from the bargaining unit

If you have any doubt that **VOTING YOUR JOB** isn't the most important decision you can make...•

THINK AGAIN!

Don't let your legislators continue to gut Collective Bargaining. Tell them you don't accept these backdoor tactics during contract negotiations!

Go to www.ocsea.org for more information on this surprise attack against labor.
