Protect Ohio jobs and public services. *Sign today!*

Ohio is facing the worst economic crisis of our lifetime, with a record state budget deficit of more than $7 billion dollars over the next biennium. Our economic crisis needs a national response. Without it, Ohio could be forced to eliminate 25 percent of its vital government programming, lay off thousands of public workers and close prisons and other facilities – in other words, cuts that would affect every single Ohioan. We call on you to support an economic stimulus package that provides vital services for Ohioans such as Medicaid, unemployment, road and infrastructure maintenance, security and other services at a time when Ohioans need and depend on them more than ever.
