

FEBRUARY  
**23**

**NATIONAL  
CALL-IN  
DAY TO  
FIGHT FOR  
OUR JOBS**

Unless Congress acts, budget shortfalls will force state and local governments to cut jobs and services. **Call Congress to fight back now** – or else more than three million jobs will be lost by 2012, including hundreds of thousands of public employee jobs.

**Call your senators at  
1-888-460-0813, and use  
the sample script below.**

**Tell them we need to reinvest in public services. We need to fight for our jobs and fix the economy – now.**

*“Hello, my name is \_\_\_\_\_ and I live at \_\_\_\_\_. I’d like to speak to the person who is working on the Jobs bill. I’m calling to make sure that Senator \_\_\_\_\_ supports and fights for investments in public services like Medicaid and education. Economists agree that helping state and local governments is one of the best ways to save and create jobs. Every dollar invested in public services creates \$1.41 in economic growth. Without it, we will lose three million more jobs. Can I count on Senator \_\_\_\_\_ to support and fight for aid for state and local governments?”*
