

# OCSEA Legislative Alert: Senate Bill 52

## *Oppose a Plan for Reshaping Ohio Government*

- Approximate current positions eliminated due to reorganization: **11,448**
- Total state employee positions within cabinet departments currently: **53,784**
- Savings Annually: **\$1 billion**

...Do you see *your* department?

Proponents say this proposal will “simplify” state government by eliminating over **11,000 state employee positions** from payroll. A similar proposal was introduced in 2005 by former Attorney General Jim Petro. That proposal didn’t go through, and now it is crucial to ensure this new version doesn’t, either. Our jobs depend on it.
