

# THE TRUTH BEHIND JANUS V. AFSCME

## The groups behind *Janus v. AFSCME*

- ...aren't about freedom
- ...are funded by wealthy special interests
- ...want to destroy your collective bargaining rights
- ...think public employees are "ineffective" and make too much
- ...fight against wage increases
- ...don't care about middle class families

## Why are wealthy, special interests going after unions and workers' rights?

- Unions are one of the last checks on corporate power, and they can't stand it!
- Anti-union groups want to maintain corporate dominance at the expense of working people.
- It kills them that unions keep fighting to re-balance the economy and expand the middle class.

## In addition to Right to Work, these groups are also pushing these bad policies at every level of government:

- State hiring freezes
- State Pensions "reform"
- State health care "restructuring"
- Vacancy elimination and erosion of bargaining unit work
- Pay Increase/ raise delays
- Sunset Review processes to eliminate State agencies, boards and commissions
- Privatization and "Competitive Contracting," including Privatization and Efficiency Councils

**"RIGHT TO WORK"  
IS WRONG**
