

We already voted **NO** on Right to Work when we defeated Senate Bill 5

So why are anti-worker legislators at it again? A Right to Work bill for public sector workers has been introduced. And, just like Senate Bill 5, this anti-union legislation would **undermine the right of Ohio's public employees to negotiate for fair pay and benefits, plain and simple.**

Tell the anti-union, Republican co-sponsors of the bill that **we already said NO to Right to Work when we defeated SB 5!** Tell them it's time to focus on building the middle class, not destroying it. Tell them to dump RTW, or we'll dump them at the voting booth on November 8.

THE FACES OF RIGHT TO WORK*

*All of these anti-union legislators are on the ballot this November.
